PRIMARY EXAMINER

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Upon a complete review of the entire written record the instant application is in condition for allowance. Chun (US Patent Number 6,486,058) is the closest prior art found by the Examiner. This reference teaches most of the claimed features of the instant application. However, the reference is silent with respect to removing unwanted overcoating material that has been deposited on the edge portions and/or back side of the substrate. There was nothing found by the Examiner during the search and review of the prior art that would have directed a skilled artisan to this essential claimed process step. In view of this, the instant application is in condition for allowance.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher G. Young whose telephone number is 571-272-1394. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Huff can be reached on 571-272-1385. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
